

Packaging Label Information Correction for Certain Semi-shielded Power Inductors

**Model SRN3010, SRN3015, SRN3012, SRN4018, SRN4026,
SRN5020, SRN5040 and SRN6028 Series**

Riverside, California – February 2, 2021 – Effective immediately, Bourns is correcting the Pb-Free Category Symbol, per the IPC/JEDEC J-STD-609B standard, on the packaging label of the Model [SRN3010](#), [SRN3012](#), [SRN3015](#), [SRN4018](#), [SRN4026](#), [SRN5020](#), [SRN5040](#) and [SRN6028](#) Semi-shielded Power Inductor Series. The terminal plating finish for these inductor series is SnAgCu which means the symbol on the packaging label should be e1. The symbol was inadvertently labeled e3.

A list of affected part numbers is listed on the next page.

Existing Label	Revised Label
 <p>BOURNS® P/N: SRN4018-100M QTY: 3000 DC: 2049 LOT NO: T6-250416-001 MADE IN MALAYSIA e3 RoHS</p>	 <p>BOURNS® P/N: SRN4018-100M QTY: 3000 DC: 2049 LOT NO: T6-250416-001 MADE IN MALAYSIA e1 RoHS</p>

There have been no changes to the Model SRN3010, SRN3012, SRN3015, SRN4018, SRN4026, SRN5020, SRN5040 and SRN6028 Semi-shielded Power Inductor Series products. Consequently, the form, fit, function, quality and reliability of the inductors are not affected.

Implementation dates are as follows:

First date code using the above change: **2103**
