Bourns® Model SRR6038-330Y Shielded Power Inductors

Addition of Manufacturing Site

Riverside California – September 12, 2022 – To accommodate increasing demand, effective immediately, Bourns will establish a new additional manufacturing site for the [Model SRR6038-330Y Shielded Power Inductors](#) in China.

The additional manufacturing plant in China uses the same design, material and manufacturing process as the existing plant. The inductors produced at the additional manufacturing site will meet the same data sheet specifications as the inductors from the existing plant.

The form, fit, function and country of origin of these inductors will not change. The quality, reliability and production lead time of these inductors should not change. Traceability will be maintained through lot code and date code.

Samples from the new additional manufacturing site are available upon request. Bourns recommends that customers test the affected part number in their specific applications for verification of satisfactory performance.

The implementation date is as follows:

First date code using the above change: 2237

Orders for the affected part numbers received after September 12, 2022 may be filled interchangeably from the existing manufacturing plant or the new additional manufacturing site.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).
