

Product Change Notification

CIRCUIT PROTECTION PRODUCTS

(Product Update Memo Originally Issued March 7, 2018)

REVISED May 30, 2018

Updates to the MOQ and/or MULT Quantities for Select Bourns® Multifuse® and SinglFuse™ Products

Effective April 1, 2018, Bourns will adjust the Minimum Order Quantity (MOQ) and Multiples Quantity (MULT) for select [Multifuse® Design Kits](#), [SinglFuse™ Design Kit](#), [Multifuse® Polymer PTC Resettable Fuses](#) and [Ceramic PTC Resettable Fuses](#).

The reason for the change is to help simplify order entry and inventory control. There is no impact on the form, fit, function, quality or reliability of the products themselves, **or on the form, fit, function, quality or reliability of the packaging reels, bags, packs and kits. There is no change to the number of parts packaged in the basic packaging units. All reels, bags, packs and kits will continue to have the same number of parts. The MOQ and MULT changes outlined below only impact the number of reels, bags, packs and kits that must be ordered going forward, but not the number of parts per reel, bag, pack or kit.** For your convenience, the changes are listed in the following tables, including updates noted in red.

For additional information, please visit the Bourns website at www.bourns.com. Should you have any questions, please feel free to contact [Customer Service/Inside Sales](#).
