## Bourns® Model 4600 SIP Networks Available in Lead Free ONLY Beginning December 1, 2006

Based on the quickly growing proportion of shipments of lead free Model 4600 networks, Bourns Networks Division announces that as of December 1, 2006, all 4600X, 4600M, and 4600H networks will be available exclusively in lead free (Sn/Ag/Cu-coated terminations), RoHS compliant versions. This transition includes custom versions of the 4600 series. Orders will be accepted for tin-lead versions of the 4600 series up to close-of-business on November 30, 2006.

The following series will be available as lead free versions only as of December 1, 2006:
