SEMICONDUCTORS

Additional New Warehouse Location for Bourns® Semiconductor Products

Riverside, California – August 23, 2023 – To accommodate increasing production demand and in the spirit of continuous improvement, effective October 2, 2023, Bourns will establish a new additional warehouse location for its semiconductor products. The current warehouse location is in Taiwan. The new additional warehouse location will be in Laguna, Philippines. A list of affected part numbers is included on the following pages.

There is no impact to the form, fit, function, reliability, or quality of the products stored at the warehouse as a result of the additional new warehouse location. The product markings and labels are also unchanged.

Unless your company has been notified otherwise by Bourns, shipments from the new warehouse location will begin no earlier than October 2, 2023.

Implementation dates are as follows:

Date that deliveries of products from the additional new warehouse will begin: **October 2, 2023**

First date code using the above changes: **2339**

Orders for the affected part numbers received after October 2, 2023 may be filled interchangeably from the existing warehouse or the new additional warehouse.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
