

Preproduction Sample Disclaimer and Limitation on Liability

This Preproduction Sample Disclaimer and Limitation on Liability ("Disclaimer") applies to purchasers and all users of Bourns® preproduction engineering samples and Bourns® products that are prototypes in nature manufactured by or on behalf of Bourns, Inc. and its affiliates (collectively, "Bourns") regardless of whether any documentation associated with the product is labeled as a prototype, sample or preproduction engineering sample ("Bourns® Sample").

Bourns® Samples are products not otherwise released for mass production and are not intended for resale, except by Bourns' authorized distributors, or for any purpose other than testing and qualification. Bourns® Samples are products which Bourns manufactured prior to the completion of all stages of design and validation testing and are often identified with a preliminary data sheet.

The information furnished in the Bourns® Samples preliminary data sheets is believed to be accurate and reliable and include essential schematics, layouts, and preliminary data. Users should independently evaluate the suitability of and test each Bourns® Sample selected in their own applications. The preliminary data sheet may be amended and/or updated as Bourns completes all stages of design and validation testing for the product. Unless specifically stated in the preliminary data sheet, Bourns® Samples may not comply with applicable safety, environmental, or regulatory requirements, including but not limited to UL, CE, RoHS, REACH, or other national or international standards. It is the purchaser's sole responsibility to verify and ensure compliance of any final product using Bourns® Samples.

ALL BOURNS® SAMPLES ARE PROVIDED "AS-IS," except Bourns offers a limited replacement or refund warranty for defects in workmanship based on criteria expressly stated in the preliminary data sheet for such Bourns® Sample. The limited warranty set forth in this Disclaimer is exclusive of all other warranties, guarantees or representations, express or implied, with respect to Bourns® Samples, including, without limitation, warranties of merchantability and fitness for particular purpose, and any other obligation or liability of Bourns to any third party as a result of purchase and/or use of Bourns® Samples are excluded. This warranty does not cover Bourns® Samples that were modified without Bourns' prior written approval, that have expired or that were subjected to physical, chemical or electrical stress that the products were not originally designed for.

Bourns® Samples covered by the preliminary data sheet may have been specified in another manufacturer's reference design. Bourns does not warrant application specific testing of the product in any reference design solutions provided by other manufacturers.

Bourns® Samples are intended solely for use as sample products to help customers understand how Bourns® products may operate in their application, for testing and qualification, and to assist customers in requesting customization of Bourns® product. Bourns® Samples that have been used for destructive qualification tests may not be used for any other purpose except for engineering analysis. Customers who purchase and test Bourns® Samples in their applications are encouraged to contact Bourns for further customization requirements (including options to move to a manufacturable product), testing / qualification data, or other product development support.

Bourns retains all intellectual property rights in Bourns® Samples and, unless otherwise agreed in writing before commencement of any work, to any customization, modification, and enhancement developed by Bourns for any specific purchaser. Any technical information, data, or feedback provided by the purchaser regarding Bourns® Samples shall be deemed non-confidential and may be used freely by Bourns for product improvement, development, or marketing purposes without restriction or compensation.

This Disclaimer replaces in its entirety Bourns Legal Disclaimer Notice enclosed with the data sheets published for Bourns® products released for mass production. By accepting and/or using the Bourns® Samples, the recipient agrees to be bound by this Disclaimer and all related terms posted on Bourns' website. By purchasing and using the Bourns® Samples you agree to not commence manufacture and sale of any higher-level devices incorporating Bourns® Samples without Bourns' express written approval.

For your convenience, copies of this Preproduction Sample Disclaimer and Limitation on Liability with German, Spanish, Japanese, Traditional Chinese and Simplified Chinese bilingual versions are available at:
