

Dear Gordon,

It's with great pleasure for us to congratulate Bourns on their 75th anniversary. Few businesses have accomplished this significant milestone, demonstrating Bourns' lasting presence in the electrical components market. Our partnership spans over 35 years as we've worked together to create a growing demand for Bourns products that consistently fulfil the design needs of our mutual clients.

We are proud to be a long-term strategic partner with such a great company as Bourns, and we look forward to building an even stronger partnership in the future. We at Electrocomponents congratulate Bourns on all the important technological and market-influencing accomplishments you have achieved in the last 75 years. Wishing you continued tremendous success for many years to come.

Regards,

Chris Beeson
Group SVP Electronics
