## 5-Pin Protector Panels

### Description

Bourns continues leadership in connection and protection with the 100 pair 5-pin protector panels for cabinet and multi-dwelling unit (MDU) applications. The 100-pair protector panel offers a modular protector interface to enable FTTx solution providers to easily protect electronics while removing the need for high cost, custom-designed protection panels. The 5-pin protector panels are prewired and pre-installed in rack-mount and wall-mount configurations for fast installation. Combined with a variety of popular outside plant connectors and selectable 5-pin receptacle materials, the 5-pin protector panel offers one solution for a variety of protection needs.
