**Features**
- Recommended for reflow soldering
- Low profile
- Long operational life
- Bottom and top adjust
- For trimmer applications/processing guidelines, click here

---

**Electrical Characteristics**
- Standard Resistance .............. 10K ohms
- Resistance Tolerance ............ ±30% std.
- Linearity ..................... ±2.5% max.
- Resolution .................. Essentially infinite
- Adjustment Angle ............. 320° ±20°

**Environmental Characteristics**
- Power Rating (5 VDC max.)
  - 50°C .................. 0.05 watt
- Operating Temperature
  - -40°C to +85°C
- Storage Temperature
  - -40°C to +85°C
- Rotational Cycling .......... 100,000 cycles
- TRS ±15%

**Physical Characteristics**
- Torque ...................... 0.30 gf-cm
- Mechanical Angle ............ 360°
- Standard Packaging
  - 1500 pcs./15" reel

Aqueous cleaning not recommended.

**How To Order**
Model TC88 D - 1 - 103 E
Model TC88 is OBSOLETE and not recommended for new designs. Model 3382G-1-(RC) is the recommended alternative.
