## Bourns® Chip Diode Product Line RoHS Compliance Product Update

Bourns is pleased to announce the lead free and RoHS compliance update on the following Chip Diode product families.

- The CD0603, CD0805, CD1005, CD1206 package series used for Small Signal Switching and Schottky Barrier diodes currently use a Cu/Ni/Au termination and are fully RoHS compliant. No change to part number is required for RoHS option.
- The CD1607-B, CD214A-B, CD214B-B, CD214C-B and CD216A-B package series used on 1A, 2A & 3A Schottky Rectifier diodes now offers RoHS compliance. Adding the LF suffix to the existing part number will provide 100 % Sn termination on the Chip diodes.

Example: CD214A-B140LF

- The CD214A-T, CD214B-T and CD214C-T package series used on 400 W, 600 W and 1500 W Transient Voltage Suppressor diodes now offers RoHS compliance. Adding the LF suffix to the existing part number will provide 100 % Sn termination on the Chip diodes.

Example: CD214A-T170CALF
