Bourns® Model PM600 Series Inductor / Transformer Marking Process Change

Change from Ink Marking to Laser Marking

Riverside, CA – October 8, 2019 – Bourns is changing the marking process of the Model PM600 Series Inductor/Transformer Series from ink stamping to laser printing. The new process will increase productivity and improve marking durability. A list of affected part numbers is shown below.

The laser marking process will have no impact on the fit or function of the product. The form will change due to the appearance of the marking. The quality and reliability should be improved as a result of the process change.

Implementation dates are as follows:

Date that manufacturing of existing products will cease: **December 31, 2019** Date that deliveries of modified products will begin: January 2, 2020 First date code using the above changes: 2001

If you have any questions or need additional information, please feel free to contact <u>Customer Service/Inside Sales</u>.

Affected Part Numbers				
PM600-01-RC	PM600-03-RC	PM600-05-RC	PM600-07-RC	PM600-09-RC
PM600-02-RC	PM600-04-RC	PM600-06-RC	PM600-08-RC	PM600-10-RC

Users should verify that the described changes will not impact the performance of the product in their specific applications.
