Bourns® Model SRN6045 Series Semi-shielded Power Inductors

Package Tape Carrier Modification

Riverside, California – July 27, 2021 – In the spirit of continuous improvement, effective January 22, 2022, Bourns will change the design of the package tape carrier for the Model SRN6045 Series Semi-shielded Power Inductors. The design change will include strengthening the ribs to the carrier pocket to better protect the contained component from damage during freight transit and handling and lengthening of the tape leader. A list of affected part numbers follows.

Current Package Tape

No strengthening ribs

Users should verify that the described changes will not impact the performance of the product in their specific applications.
The form, fit and function of the inductor will not change as a result of these changes to the package tape carrier. The quality and reliability of the inductor should be improved with these changes to the package tape carrier.

Samples will be available upon request starting September 5, 2021.

Implementation dates are as follows:
Date that manufacturing of existing package tape carrier will cease: **January 22, 2022**
Date that deliveries of modified package tape carrier will begin: **January 23, 2022**
First date code using the above changes: **2204**
