## SENSORS AND CONTROLS

### Bourns Updates Hardware Packaging for Select Sensors & Controls Products

Riverside, California – March 13, 2023 – In the spirit of continuous improvement, effective immediately, Bourns will change the way hardware is packaged for select Sensors and Controls models. Instead of bulk packaging, the affected models will now be packaged according to the descriptions in the short and long term action columns in the chart below. This change should improve customer process efficiency by reducing missing hardware pieces and facilitating the separation of hex nuts and lock washers.

The Minimum Order Quantity and Multiple Order Quantity will remain unchanged. A list of affected models is provided below.

P/N:	Model	Hardware Packed	Short Term Action	Long Term Action
0498003101 Tube	EM14 (terminal configuration)	Packed in bulk, for the total Qty box	Packed in bulk in single plastic bag per tube quantity	New Tray
0498003101 Tube	3310/3315	Packed in bulk, 50 pieces for every two tubes	Packed in bulk in single plastic bag per tube quantity	New Tray
0450802002 Tray	EN00 (No cable)	Packed in bulk, for the total Qty box	Packed in bulk in single plastic bag per tray quantity	New Tray
0450807702 ESD bag	EN00, EM14 cable configuration	Packed in bulk, for the total Qty box	Mount hardware on sensor	New Tray

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).
