### Bourns® Model CL1000NFZY1016BL1 Radial Leaded Ceramic Capacitor to be Discontinued

*Riverside, California* — June 2, 2025 - In accordance with our ongoing product life cycle management procedure, effective September 15, 2025, Bourns will transfer the Model CL1000NFZY1016BL1 Radial Leaded Ceramic Capacitor to an End of Product Life status. A lack of raw materials for this part number necessitates this action. The obsolete part number and the recommended replacement part number is included below.

Obsolete Part Number	Recommended Replacement Part Number
CL1000NFZY1016BL1	CL1000NFMX1016BL1

The recommended replacement product is provided in the table above. The form and function of the recommended replacement products are identical to the obsolete parts. While the fit of the suggested replacement part will not be identical to the obsolete part due to a difference in device height, the recommended replacement product is pad layout compatible and the specifications of the suggested replacement model is likely to be substitutable for typical applications. Please refer to the Bourns data sheet or contact a Bourns Application Engineer for more information. Users should test the suggested replacement parts in their specific applications for verification of satisfactory performance. Samples of the suggested replacement part are available upon request.

Customers may continue to purchase these parts during the End of Product Life transition period between now and September 15, 2025. Orders for these discontinued products during this End of Product Life transition period will be considered noncancellable. Products purchased during this End of Product Life transition period will be considered nonreturnable and will be covered by Bourns' standard warranty.

#### Please plan for the following deadlines:

Last time buy date: **September 15, 2025**

Last time ship date: **December 15, 2025**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).
