

Product Obsolescence Memo

TRIMPOT® TRIMMING POTENTIOMETERS

April, 2013

Bourns Trimpot Product Line Discontinues Model 3364 Embossed Tape Designator "G"

Bourns Trimpot Product Line is announcing the end of life for the following part numbers with the embossed tape designator "G", effective immediately.

- [3364X-1-RCG](#)
- [3364W-1-RCG](#)
- [3364A-1-RCG](#)
- [3364B-1-RCG](#)

The "G" products are hereby replaced with the "E" designated products. Bourns recommends that users substitute Model 3364 with the "E" designator for the discontinued part numbers. The difference between the "G" and "E" embossed tape designators are the reel size and minimum order quantity:

- The "G" option has a reel size of 14.5 inches containing 5,000 pieces;
- the "E" option has a reel size of 7 inches containing 1,000 pieces.

Crosses to the standard product are outlined below:

Obsolete Part Number	Replacement Part Number
3364X-1-RCG	3364X-1-RCE
3364W-1-RCG	3364W-1-RCE
3364A-1-RCG	3364A-1-RCE
3364B-1-RCG	3364B-1-RCE
