

Bourns® Model 6630 Precision Potentiometer

In line with providing continued improvement of our designs and technology, Bourns® Sensors and Controls Division is pleased to announce product enhancements to our Model 6639 Single-turn Precision Potentiometer. Product enhancements and new options have been combined into a new Model 6630 Single-turn Precision Potentiometer.

Production quantities and samples are available now.

Some of the enhancements that have been made to this product are:

- *Lower profile*
- *Spade terminals suitable for soldering or connector use*
- *Lower cost, same quality product*

Some of the standard options offered on the new Model 6630 are:

- *Anti-rotation lug*
- *Mechanical stops*
- *Flatted or slotted shafts*
- *Axial or radial leads*

The Model 6630 data sheet is available at www.bourns.com.
